

# WHAT IS THE DEMOCRATIC PARTY CENTRAL COMMITTEE? AND WHY SHOULD YOU VOTE FOR DAVID ESRATI AS PRECINCT CAPTAIN ON MAY 8?

Democracy is great. You have 3 choices for precinct captain this election. This is the total opposite of what happens for paid elected positions in Montgomery County- where the party does everything it can to stop voters from choosing who they want to represent them.

For the last 20+ years- and the last 8 as your precinct captain, I've asked the party to stop endorsing in primaries. I get booted. This doesn't happen in other counties. They let the people of the county decide.

I've asked for the party not to mail hit pieces on democrats that they didn't endorse. I got booted. I've suggested that people who work for elected people not be allowed to serve on the central committee- so as to avoid conflicts of interest- I get booted.

One of the people who is running against me this year works for Carolyn Rice. If she wins as County Commissioner, and he's on the central committee, he gets to pick his new boss. That doesn't pass the smell test in my book. I envision a democratic party that works to get democrats elected, and that doesn't eat their own.

As many of you might know, I write the most read political blog in Dayton- [www.esrati.com](http://www.esrati.com). I've been trying to keep our community informed since 2005.

Last year, I exposed another pepper spraying of an inmate in restraints in the jail, right after Sheriff Plummer said it didn't happen [www.esrati.com](http://www.esrati.com)/ deadly and forced a school board member who didn't live in the district to resign [www.esrati.com](http://www.esrati.com)/ manofmystery

There isn't anyone in Dayton more committed to making sure that our politicians are held accountable. You can make sure I still have access to the inner workings of the party by re-electing me as precinct captain.

In case you have no idea who I am, I invite you to read about me on my blog, or just google me. I've been your neighborhood president, civic activist, big brother and a small business owner in South Park since 1986. I've rehabbed five buildings.

If you want to know why I support Darryl Fairchild for City Commission, or will vote yes on Issue 1, which will help us fix our gerrymandering problem in Ohio, feel free to call, or stop by my office at the corner of Bonner and Adams.

I will work for you, to make sure you have a party that works for you- not just for the friends and family of our elected officials.

Thank you for reading this.

And, thanks for your past support.
